## SUMMARY

Full Stack & AI/ML Developer with **1.6+ years of internship and full-time job experience** building production-level web and mobile applications using the MERN stack, React Native, and AI/ML technologies. Delivered scalable platforms including kevlardefense.com and darknettracker.com. Skilled in REST API design, responsive UI development, database management, WordPress development, and integrating intelligent, user-centric solutions. Passionate about continuous learning and building efficient, scalable applications.

## WORK EXPERIENCE

**Jaswik Technology India** | **Software Developer & AI Engineer (Full-Time)** Aug 2026 – Present

- Design, develop and deploy scalable full-stack web applications using React.js, Next.js, Node.js, Express.js and MongoDB.
- Build and integrate AI-powered features and intelligent solutions into production applications.
- Develop secure REST APIs with JWT-based authentication, role-based access control and input validation.
- Optimize application performance and collaborate with team members using Git-based workflows.
- Integrate third-party APIs and AI services while writing clean, maintainable code following best practices.

**Merahkie International Pvt. Ltd.** | **Full Stack Developer Intern** Apr 2026 – Sep 2026

- Developed dynamic and responsive websites using WordPress, custom themes, and modern web technologies.
- Built and customized reusable WordPress components, themes, and UI sections to improve website speed.
- Optimized WordPress website performance through caching, plugin management, image optimization, and SEO best practices.
- Collaborated with the team to deliver responsive, SEO-friendly website pages as per client requirements.

**Stefax IT Services** | **Full Stack Developer Intern** Aug 2025 – Feb 2026

- Developed and deployed two production-grade web applications — kevlardefense.com and darknettracker.com — using the full MERN stack.
- Architected and implemented secure REST APIs with JWT-based authentication, role-based access control, and input validation.
- Built fully responsive UIs using React.js and Tailwind CSS, improving cross-device user experience and reducing load times.
- Managed end-to-end deployment pipelines including server configuration, environment setup, and post-launch monitoring.
- Tested and debugged applications and used Git and GitHub for version control and smooth team collaboration.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, Python, Java, C, C++
**Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, WordPress, Wix, Elementor
**Backend / DB:** Node.js, Express.js, REST APIs, MongoDB, MySQL
**Mobile / AI:** React Native, NumPy, Pandas, Scikit-learn, Matplotlib
**Tools:** Git, GitHub, VS Code, Cursor, GitHub Copilot, Replit AI, Lovable AI, Claude AI

## PROJECTS

**Doctor Appointment Booking System** | MERN Stack

- Full-stack appointment booking app with user auth, doctor listings, and admin dashboard.
- Online appointment scheduling with real-time doctor availability.
- Integrated payment system for easy and secure transactions. **Live: doctor-booking-system-jdde.onrender.com**

**TanishGPT** | MERN Stack + AI/ML

- Built an AI-powered Text/Image generation platform with a modern and responsive user interface.
- Implemented Dark/Light theme toggle for an enhanced and customized user experience.
- Added community publishing feature to share generated images publicly with other users. **Live: tanishgpt.vercel.app**

## EDUCATION

**Guru Kashi University** | B.Tech, Computer Science | 2023 – 2027 (Pursuing) | CGPA: 8.8

**Bihar School Examination Board** | 12th Science (69%) | 2023 | 10th (80%) | 2021

## CERTIFICATIONS

**Web Designer** – Guru Kashi University (2026) | **Modern C++ Programming** – IIT Kharagpur (2025)

**Full Stack Web Development** – Udemy (2025) | **Big Data & Data Science** – NIELIT (2024)
